Feature	Specification
Product Name	Premium Wooden Bee Brush
Bristle Material	100% Natural Horsehair
Bristle Arrangement	Triple Row
Handle Material	Ergonomic Hardwood
Key Features	Maximum Density, Ultra-Gentle Bristles, Comfortable Grip

High Performance Cordless Electric Bee Shaker For Beekeeping

Item Number: FSD-1

Introduction

Boost beekeeping efficiency with our Cordless Electric Bee Shaker. Gentle, fast frame clearing with 4-speed control. Durable, ergonomic design. Order now!

Learn More

Feature	Description & Benefit
Powerful Cordless Operation	Powered by a high-capacity 20V MAX 2.0Ah lithium-ion battery, this Bee Shaker offers complete freedom of movement without the hassle of cords. The powerful motor delivers high-frequency vibrations for rapid and effective bee removal.
Variable Speed Control	Equipped with a multi-gear adjustable switch (4 settings), allowing the operator to fine-tune the shaking intensity. Use a gentle vibration for sensitive brood frames or a more powerful setting for stubborn bees on honey frames, ensuring optimal results and minimizing harm to the colony.
Secure & Adjustable Frame Clamp	The reinforced, saw-toothed lifting clamp is specifically designed to fit standard hive frame dimensions. It provides a strong, reliable grip, preventing the frame from slipping during operation. The clamp width is adjustable to accommodate various frame top bars.
Complete & Portable Kit	The entire set, including the Bee Shaker, battery/batteries, and charger, comes in a rugged, custom-molded carrying case. This protects the tool during transport and keeps all components organized and ready for use in the field.
Customizable for Your Market	Available in two distinct colors (professional blue and high-visibility red). We also offer a choice of charger plugs (EU, US, AU, etc.) to meet the specific needs of your international customer base.

Parameter	Details
Product Name	Cordless Electric Bee Shaker
Available Colors	Red, Blue
Material	Reinforced Plastic, Stainless Steel
Battery Voltage	20V MAX
Battery Capacity	2000mAh (2.0Ah) Lithium-Ion
No-load Speed	0-2700 Strokes/Min
Speed Adjustment	4-Gear Adjustable Speed
Clamping Range	Width: 20mm - 30mm (0.79" - 1.18") Thickness: < 22mm (0.87")
Dimensions (L x W x H)	Approx. 35cm x 32cm (13.77" x 12.59")
Weight (Tool only)	1.85 kg (4.08 lbs)
Weight (w/ 1 Battery)	2.25 kg (4.96 lbs)
Total Kit Weight	3.8 kg (8.38 lbs)
Charger Input	AC 100-240V, 50/60Hz
Charger Output	DC 21V 1300mA
Available Plug Types	EU, US, AU, UK (Please specify on order)

Feature Summary	Benefit for Your Business
Increased Efficiency	Reduces time per hive, allowing beekeepers to manage more colonies.
Reduced Bee Stress	Faster and gentler than brushing, leading to calmer hives and fewer defensive bees.
Improved Ergonomics	Minimizes physical strain on the beekeeper, reducing the risk of repetitive strain injuries.
Professional Grade	A durable, high-performance tool that reflects quality and enhances your product catalog.
Wholesale Ready	Customizable options (color, plug, battery count) make it easy to stock and sell in any market.

Commercial Grade Vertical Electric Bee Sweeper For Bee Removal

Item Number: FSD-2

Introduction

Boost honey harvest efficiency with our Vertical Electric Bee Sweeper—gentle, fast, and built for commercial apiaries. Stainless steel, portable, high ROI.

Learn More

Parameter	Details
Product Name	Vertical Electric Bee Sweeper
Primary Material	Polished Stainless Steel
Power Source	Self-contained, rechargeable 12V DC battery system
Motors	Dual independent high-torque DC motors
Brushes	Two counter-rotating soft-bristle brush rollers
Mobility	Integrated wheels and transport handle
Compatibility	Designed to accommodate standard Langstroth and similar-sized frames
Controls	Simple and reliable toggle switch for On/Off operation

Feature Summary	Benefit for Commercial Beekeepers & Distributors
Automated Bee Removal	Drastically reduces the manual labor and physical strain associated with honey harvesting.
Unmatched Speed	Processes frames significantly faster than manual brushing, boosting overall productivity.
Gentle on Bees	Soft bristles minimize bee injury and stress, contributing to calmer, healthier colonies post-harvest.
Durable & Hygienic	Stainless steel construction ensures a long service life and is easy to clean and maintain.
Portable Design	Allows for efficient on-site use directly in the apiary, streamlining the entire workflow.
High ROI	A valuable capital investment that provides a quick return through significant labor savings and increased operational speed.
