Parameter	Value
Voltage	Single Phase 220V 50HZ/110V 60HZ
Power	3.5KW
Labeling Speed	50-100 pieces/min
Labeling Accuracy	±1%
Applicable Bottle Diameter	≤101mm
Label Height	15-200mm
Label Length	25-300mm
Label Roll Inner Diameter	76mm
Label Roll Outer Diameter	≤350mm
Machine Dimensions (L x W x H)	2800 x 1650 x 1500 mm
Machine Weight	450 kg

Feature	Benefit for Your Business
Dual Labeling Heads	Labels front and back in a single pass, maximizing efficiency.
Bottle Separator System	Ensures perfect product spacing for consistent, high-speed labeling.
PLC Touchscreen Control	Simplifies operation and provides complete control over production.
Industrial-Grade Construction	Built for 24/7 operation and long-term reliability.
High Versatility	Handles a wide array of flat-sided container shapes and sizes.
