Feature	Description & Benefit
Rubberized Handle	Provides a comfortable, non-slip grip that significantly reduces hand fatigue during prolonged use.
Galvanized Steel Build	Offers excellent corrosion resistance and robust performance at a cost-effective price point.
Secure Clamping Jaws	Precision-stamped jaws grip the frame's top bar firmly, preventing dangerous slips and drops.
Bee-Safe Vertical Lift	The scissor design is the safest for the colony, minimizing bee casualties and protecting the queen.

Parameter	Details
Product Name	Frame Grip with Rubberized Handle
Materials	Galvanized Steel, Rubber
Handle Width	11 cm

Feature Summary	Benefit for Your Business
Enhanced User Comfort	Directly addresses beekeeper fatigue, leading to increased productivity and a better work environment.
Cost-Effective Durability	An excellent return on investment with a low initial cost and a long, reliable service life. Perfect for outfitting entire teams.
Proven, Functional Design	A classic tool that is trusted by beekeepers, ensuring high demand and customer satisfaction for distributors.
Improved Bee Safety	A key selling point that aligns with best practices for maintaining healthy and productive colonies.
