

Ergonomic High Visibility Plastic Frame Grip Handles

Item Number: BFG-8

Introduction

Reduce hand fatigue with our ergonomic frame grip. Durable stainless steel & non-slip handles for secure, bee-safe hive inspections.

[Learn More](#)

Feature	Description & Benefit
Ergonomic Handles	Contoured plastic with finger grooves reduces user fatigue, allowing for longer, more comfortable work sessions.
Stainless Steel Mechanism	Provides the strength and durability needed for commercial use and ensures a long, rust-free service life.
Secure Clamping Jaws	Precision-formed jaws grip the frame's top bar tightly, preventing costly and dangerous slips.
Bee-Safe Vertical Lift	The scissor design is the safest for the colony, minimizing bee casualties and protecting the queen.

Parameter	Details
Product Name	Ergonomic Frame Grip
Materials	Stainless Steel, Plastic
Dimensions (H x W x D)	15.8cm x 11.2cm x 3.8cm (6.2in x 4.4in x 1.5in)
Color	High-Visibility Yellow

Feature Summary	Benefit for Your Business
Focus on User Comfort	Directly addresses beekeeper fatigue, leading to increased productivity and a safer work environment.
Durable Hybrid Construction	The combination of steel and plastic offers a premium feel and long-lasting performance, making it a high-value item for distributors.
Enhanced Bee Safety	A critical selling point that aligns with best practices for maintaining healthy, productive colonies.
High-Visibility Design	A practical feature that reduces tool loss in the field, saving money and time.
