Feature	Description & Benefit
Heavy-Duty Steel Build	Provides maximum durability and strength for a lifetime of service, offering an excellent return on investment.
Direct Plier-Action	Delivers powerful, direct clamping force, ideal for handling heavy or tightly propolized frames.
Aggressive Serrated Jaws	Guarantees a secure, non-slip grip, enhancing safety and preventing costly accidents.
Durable Powder-Coat Finish	Offers superior protection against rust and corrosion while the bright color provides high visibility in the apiary.

Parameter	Details
Product Name	Heavy-Duty Plier-Action Frame Grip
Material	Powder-Coated Steel
Dimensions (W x H)	13cm x 11cm

Feature Summary	Benefit for Your Business
Unmatched Strength	Reduces the risk of tool failure and allows for confident handling of all frames, increasing operator efficiency.
Superior Grip Security	Minimizes the chance of dropping frames, which protects the colony, the comb, and the honey harvest.
Extreme Durability	A one-time investment in a tool that will not need to be replaced, reducing long-term operational costs.
Professional-Grade Tool	A robust, no-nonsense tool that appeals to serious beekeepers and is a strong seller for distributors.
