Feature	Description	Benefit for Professionals
Design Aesthetics	Hexagonal shape with intricate bee & honeycomb pattern.	Creates visually appealing, professional-looking end products with a strong, marketable beekeeping theme.
Material Quality	High-grade, flexible, durable pink silicone.	Ensures long service life, easy demolding, consistent results, and simple cleanup, vital for frequent use.
Dimensions (approx.)	7.3cm (W) x 7.6cm (Diagonal W) x 3.8cm (H) / 2.9in x 3in x 1.5in.	Produces conveniently sized items, ideal for retail, gifting, or sample sizes.
Functional Performance	Non-stick, easy release, precise detail transfer, temperature resistant.	Guarantees efficient production, high-quality finished goods with minimal defects, and operational ease.
Versatility	Suitable for soap, beeswax, candles, and other crafts.	Allows for diverse product creation from hive resources, maximizing the mold's utility and return on investment.
