Feature	Description	Benefit for Professionals
Material	High-quality, durable plastics (translucent reservoir, yellow base)	Long service life, weather-resistant, withstands regular handling
Design	Two-part system: gravity-fed reservoir, textured anti-drowning base	Efficient feeding, protects bees, easy to manage
Capacity & Monitoring	Translucent reservoir for easy liquid level checks	Saves time, minimizes hive disturbance, ensures consistent supply
Dimensions	Optimized for hive entrances (Base: 15x8.5cm; Reservoir: 13.2x7cm)	Practical, fits standard setups, ample feeding area
Ease of Use	Simple to fill, place, and clean	Reduces labor, improves operational efficiency, promotes hygiene
Professional Grade	Robust construction, functional design, reliable performance	Meets demands of commercial operations, enhances apiary management
