Feature	Description / Benefit
Roller Head	Sharp, durable plastic tines for fast and effective wax perforation.
Design	Ergonomic "paint roller" style for intuitive use and minimal fatigue.
Construction	Lightweight yet robust with a wooden handle and sturdy metal frame.
Comb Safety	Gentler on all types of comb, especially plastic foundation, minimizing damage.
Maintenance	Rust-proof plastic roller is easy to clean and sanitize.
Efficiency	Dramatically speeds up the uncapping process for improved harvest workflow.
