Feature	Description	Benefit for the User
Material	High-grade, UV-resistant plastic	All-weather durability; will not rot, warp, or crack. Easy to clean.
Rotary Design	4-position rotating disc.	Provides instant access to four different entrance settings without removing any parts.
Functionality	Open, Reduced, Queen Excluder/Ventilation, and Closed positions.	A versatile 4-in-1 tool that replaces multiple pieces of equipment.
Application	8cm diameter, single-screw mount.	Ideal for nuc boxes, mating hives, and as an upper hive entrance.
Color Options	Available in multiple colors.	Allows for easy color-coding of hives for efficient apiary management.
Ergonomics	Notched outer edge.	Provides a secure grip for easy turning, even with beekeeping gloves on.
