

Precision Automated Packaging Turntable Honey Spoon Filling Sealing Packing Machine

Item Number: HFM-11

Introduction

HONESTBEE's Turntable Honey Spoon Filling & Sealing Machine automates packaging for commercial beekeepers. Boost efficiency, hygiene & output with customizable options.

[Learn More](#)

Feature	Specification / Benefit
Machine Type	Turntable / Rotary Filling & Sealing Machine
Product	Honey (adaptable for other viscous liquids/pastes)
Containers	Cups, Honey Spoons, other small containers (customizable)
Control System	PLC with DELTA HMI Touchscreen (Multilingual)
Power Supply	Single Phase 220V (customizable to 110V)
Required Air Pressure	≥0.7 MPa (client to provide air compressor)
Output Efficiency	1600-1800 units/hour (for 2-up configuration, customizable for higher outputs)
Construction	Food-grade Stainless Steel, Aluminum Alloy
Key Functions	Automatic Container Feeding, Filling, Lid Placement, Heat Sealing, Product Ejection
Customization	Voltage, Output (2-cup, 3-cup, 4-cup), Container Type/Size
Benefits	Increased Efficiency, Consistency, Reduced Labor, Hygiene, Professional Presentation
Support	Spare parts, technical assistance
