[Learn More](#)

Feature	Benefit / Value
Stainless Steel Dual-Action Head	Combines a toothed comb and a flat scraper for versatile, efficient cleaning. Rust-proof and durable.
Ergonomic Wooden Handle	Provides a comfortable, non-slip grip that reduces hand fatigue during prolonged use.
Custom-Spaced Teeth	Specifically designed to clean queen excluder slots quickly and without causing damage.
Robust Construction	Securely joined with a metal ferrule for a long service life in a professional environment.
Compact & Versatile Design	Effective for cleaning excluders, hive bodies, frames, and bottom boards. A true multi-purpose tool.
