

Professional Dual-End Stainless Steel Hive Tool For Beekeeping

Item Number: HT-5

Introduction

Durable dual-end hive tool for beekeepers: stainless steel, ergonomic wood handle, versatile scraping & prying. Essential apiary equipment.

[Learn More](#)

Feature	Description / Benefit
Material	High-quality stainless steel for superior strength and rust resistance.
Handle	Riveted wooden scales provide a comfortable, secure grip and professional look.
Straight End	Ideal for prying hive bodies, scraping flat surfaces, and general use.
Bent End	Perfect for cleaning hive corners and providing controlled leverage for lifting frames.
Construction	Full-tang design ensures maximum durability and balance for heavy-duty tasks.
Functionality	A versatile, all-in-one tool that is essential for every hive inspection.
