| Feature | Description / Benefit |
|-------------------|--|
| Action | Perforates wax cappings via rolling action for maximum speed. |
| Needles | Dense, sharp stainless steel needles ensure thorough uncapping. |
| Handle | Durable, ergonomic solid wood handle for comfort and control. |
| Benefit for Honey | Results in less wax debris in the extractor, simplifying filtration. |
| Benefit for Comb | Minimizes damage to the comb, allowing bees to repair it faster. |
| Construction | Built with robust, rust-resistant materials for professional, long-term use. |
