

Professional Multi-Functional Queen Bee Cage

Item Number: QC-20

Introduction

Professional Multi-Functional Queen Cage for safe bee introductions. Durable, reusable design for commercial beekeeping.

[Learn More](#)

Feature	Description	Benefit
Material	High-quality, durable, non-toxic semi-transparent plastic.	Long-lasting, reusable, safe for bees, and allows for easy visual inspection.
Design	Multi-compartment with a central queen area and end chambers for candy/attendants.	Facilitates a controlled, slow-release introduction, increasing queen acceptance rates.
Ventilation	Queen excluder-style grid on the main surface and vertical slots on the sides.	Promotes pheromone exchange, allows worker bees to tend to the queen, and ensures good airflow.
Lid/Gate	Secure sliding gate with integrated vents.	Provides easy access while ensuring the queen remains safely contained until release.
Functionality	Integrated hanging loop and frame-securing tabs.	Offers versatile placement options within the hive for optimal introduction conditions.

Primary Application	Queen introduction, transportation, and banking.	A multi-purpose tool that is essential for hive management and colony expansion.
