

Professional Plastic Queen Excluder For Modern Beekeeping

Item Number: QE-02Y

Introduction

Professional Plastic Queen Excluder for beekeeping – durable, rust-proof, and bee-friendly. Enhances hive management and honey purity. Available in standard sizes.

[Learn More](#)

Feature	Benefit / Value
High-Quality PE/PP Material	Rust-proof, non-warping, durable for a long service life and low total cost of ownership.
Precision-Engineered Slots	Effectively excludes the queen while allowing maximum worker bee access; no more brood in honey supers.
Smooth, Bee-Friendly Design	Protects bees from injury, supporting a healthier and more productive colony.
Lightweight & Easy to Clean	Simplifies hive management and maintenance, saving time and labor in the field.
Multiple Standard Sizes	Compatible with the world's most popular hive types (Langstroth, Dadant, National).
Customization Available	Allows distributors and large operations to order equipment tailored to their unique needs.
