Feature	Description / Benefit
Material	Heavy-duty, food-grade Polypropylene (PP) for strength and safety.
Blade Design	Extra-wide rectangular blade maximizes efficiency and honey recovery.
Handle Design	Sturdy, offset handle provides excellent leverage and keeps hands clean.
Durability	Rigid, single-piece construction resists bending and breaking.
Primary Use	Scraping residual honey from buckets, tanks, and extractors.
Maintenance	Non-porous and easy to sanitize for professional food handling.
