Feature	Specification
Product Name	Semi-Automatic Vacuum Capping Machine
Operation Mode	Pneumatic (Requires external Air Compressor)
Vacuum Source	Vacuum Pump(Included)
Production Capacity	600 - 720 BPH (Bottles Per Hour)
Voltage	Single Phase 220V 50HZ or 110V 60HZ
Power	1000W
Applicable Bottle Height	Approx. 55mm - 190mm
Applicable Cap Diameter	Approx. 40mm - 140mm (only for one mold)
Machine Dimensions	560mm x 510mm x 730mm
Machine Weight	Approx. 55 KG
Packaging Dimensions	70cm x 60cm x 90cm
Gross Shipping Weight	95 KG
