Feature	Description & Benefit
Comfortable Wood Handles	Ergonomically shaped to reduce hand strain and provide a warm, secure grip, increasing user comfort and productivity.
Stainless Steel Mechanism	Provides the strength to lift heavy honey frames and the durability for a long service life in tough apiary conditions.
Secure Clamping Jaws	The precision-formed jaws grip the frame's top bar tightly, preventing dangerous and costly slips.
Straight Vertical Lift	The scissor design protects the colony by minimizing bee casualties during frame removal and inspection.

Parameter	Details
Product Name	Frame Grip with Wood Handles
Materials	Stainless Steel, Natural Wood
Dimensions (W x H x D)	13cm x 9.5cm x 5cm

Feature Summary	Benefit for Your Business
Ergonomic Design	Reduced user fatigue translates to higher productivity for commercial beekeepers.
Hybrid Construction	The premium look and feel make it a high-value item for distributors, appealing to discerning customers.
Enhanced Bee Safety	A key selling point that highlights the tool's contribution to maintaining strong, healthy colonies.
Durability and Longevity	A reliable, long-lasting tool that builds customer trust and reduces the need for frequent replacement.
