# Stainless Steel Hive Tools For Beekeeping Bee Keeping Tools

Item Number: BHT-01

## Introduction

Discover durable stainless steel hive tools for beekeeping. Perfect for hive inspections, frame cleaning, and honey extraction. Essential for beekeepers.

[Learn More](#)

| Feature      | Description                                                                                 |
|--------------|---------------------------------------------------------------------------------------------|
| Material     | High strength stainless steel                                                               |
| Durability   | Strong in all weather conditions, will not rust or corrode, easily sanitized                |
| Design       | Improved design for separating boxes, lifting, scraping, or prying frames                   |
| Strength     | Extra strength design, extra-thick bar for durability and comfort                           |
| Practicality | Thick, strong feel with an ideally sized handle, easy to store in pockets or toolboxes      |
| Usage        | Indispensable for beekeeping, suitable for separating boxes, cleaning frames, and bee boxes |

# Stainless Steel Beehive Scraper And Hook Beekeepers Tool For Hive Maintenance

Item Number: BHT-05

## Introduction

Stainless Steel Hive Tool with Scraper and Hook: Essential for beekeepers, durable, rust-resistant, and versatile for frame cleaning and lifting. Perfect for hive maintenance.

[Learn More](#)

| Parameter  | Specification                                                |
|------------|--------------------------------------------------------------|
| Material   | Stainless steel                                              |
| Type       | Combination of standard 10" hive tool and J-Hook             |
| Feature    | Hook portion is thinner and better suited for lifting frames |
| Preference | Personal favorite tool for bee yard use                      |

# Stainless Steel Beekeepers Tool Beehive Scraper For Bee Hive

Item Number: BHT-03

## Introduction

Stainless steel beehive scraper: Durable 304 steel, 9-inch tool for hive maintenance. Pry, scrape, lift frames effortlessly. Ergonomic red handle for firm grip. Essential

[Learn More](#)

| Parameter     | Specification                          |
|---------------|----------------------------------------|
| Material      | 304 stainless steel                    |
| Color         | Red (painted halfway)                  |
| Type          | Hive tool                              |
| Length        | 9 inch                                 |
| Usage         | Prying apart hive bodies and supers    |
| Durability    | High quality steel, hard to bend/break |
| Functionality | Lifting frames, scraping wax/propolis  |

# Stainless Steel J Hook Hive Tool For Beekeeping

Item Number: BHT-02

## Introduction

J hook hive tool: Stainless steel, ergonomic design for lifting frames, scraping wax, and prying hive boxes. Essential for beekeepers.

[Learn More](#)

| Parameter  | Description                                                                                                       |
|------------|-------------------------------------------------------------------------------------------------------------------|
| Material   | Made of stainless steel, which is sturdy and difficult to bend or break.                                          |
| Use        | Great for lifting frames and scraping off excess wax or propolis on frames and hive walls.                        |
| Durability | Thick, strong feel with an ideally sized handle, easy to store in beekeeping jacket pockets, smoker, or tool box. |
| Features   | Double beveled edges for scraping propolis, hook end for pulling frames without damaging equipment.               |
| Value      | Combination of price and features make this tool a preferred choice.                                              |
